

An Office that Serves Everyone

The Gleann Abhann Ministry of Children

The Gleann Abhann Ministry of Children (GAMOC) provides many services.

Simply stated they are:

- To oversee children's activities at all Principality-level events.
- To assist Local officers.
- To encourage and promote education.

How does the GAMOC oversee children's activities at Principality-level events?

The GAMOC will contact the autocrat before every Principality-level event!

If the autocrat has not appointed a Children's Coordinator for that event, then the GAMOC will help find one (if desired.) The GAMOC is happy to help the Children's Coordinator in any way possible!

How does the GAMOC assist Local officers?

By being an advocate and a voice to the Principality Seneschal and our Stellar Prince & Princess.

By providing a network of other warranted MOCs to draw upon for advice and encouragement and often help with events.

Sometimes an officer just needs a shoulder to cry on! When problems are not so easily solved, the GAMOC can give advice or instruction on how to **begin** to solve the problem! (Join [MOC Meridies@yahoo.com](mailto:MOC_Meridies@yahoo.com) to network with other Local officers and children's coordinators!)

How does the GAMOC encourage and promote education? Through the Gleann Abhann Page School!

The theme of the GAPS Program is based on the Celtic legends of the Tuatha De Danann and the magical items that came from the four cities where they learned poetry and magic.

GAPS has programs for ages 5-18!
